

**Same-sex couples per 1,000 households
by census tract (adjusted)**

Same-sex couples 32,469

**Same-sex couples per
1,000 households 6.7**

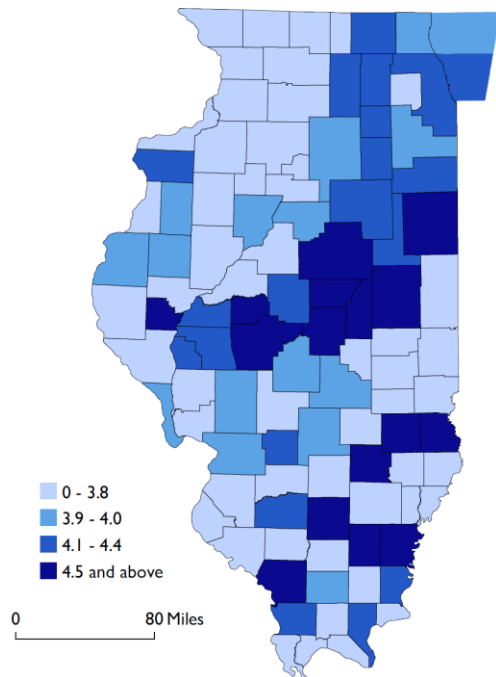

**Proportions of same-sex couples
by sex and child-rearing (adjusted)**

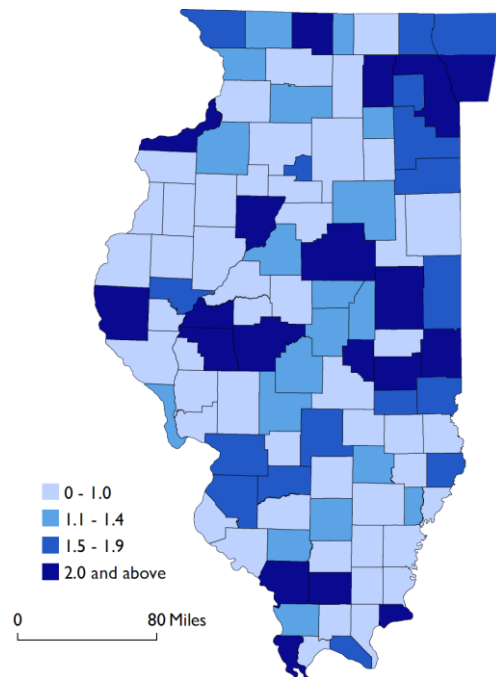

**Top five counties and cities among those with more than 50 same-sex couples
ranked by same-sex couples per 1,000 households**

County	Same-sex couples (adjusted)	Same-sex couples per 1,000 households (adjusted)	City	Same-sex couples (adjusted)	Same-sex couples per 1,000 households (adjusted)
Cook	18,202	9.26	Oak Park	409	18.06
Jackson	204	7.97	Forest Park	109	15.27
Champaign	598	7.42	Evanston	386	12.83
Sangamon	602	7.26	Chicago	13,126	12.55
Morgan	98	6.96	Berwyn	173	9.16

Same-sex female couples per 1,000 households by county (adjusted)

Same-sex male couples per 1,000 households by county (adjusted)

Percent of same-sex couples raising children by county (adjusted)

Data and methodology

Data are compiled from PCT 15, Census 2010 SF-1. Same-sex couples are identified in households where Person 1 describes his or her relationship with another adult of the same sex as either a “husband/wife” or “unmarried partner”.

The reported number of same-sex couples in the state and the associated figure for same-sex couples per 1,000 households are based on official Census tabulations.

Adjusted data

All other data used in the report are adjusted figures and do not represent official Census Bureau tabulations. The adjustment procedure accounts for the likelihood that a small portion of different-sex married couples miscode the sex of a spouse and are incorrectly counted as a same-sex couple. It also takes into account the possibility that some same-sex couples may not be counted in Census tabulations due to concerns about confidentiality or because neither partner was Person 1 in the household.

Go [here](#) for a complete description of the adjustment procedure.
