

## Persons Living with an HIV Diagnosis / 2008

# of Cases, by County, Overall

2008 Count of adults/adolescents living with an HIV diagnosis

\* Data are not shown to protect privacy because a small number of cases and/or a small population size

\*\* State health department requested not to release data

**NOTE:** Caution should be exercised when interpreting county-level rates and case counts because these values are inclusive of correctional populations. Values may be artificially inflated when an institution is housed in the county.
